

Appraisal Department L.L.C.

Once we received your order we will begin working on it as soon as possible.

This includes researching public records for sales information and physical characteristics for your property as well as researching MLS data for information necessary to provide you with a credible opinion of value.

If for any reason your order needs to be cancelled prior to completion, contact us immediately. At that time we can discuss how much of the work has been performed and how much of the fee can be refunded.
